Experience

Software Engineer Intern

SilverSky Technology, Ahmedabad March 2026 - October 2026

- Developed responsive, reusable web interfaces using React.js and TypeScript, following scalable component architecture and optimized folder structures.
- Built API-driven applications using Redux Toolkit, Redux Persist, TanStack Query, Axios, React Hook Form, and Zod for state management, data fetching, caching, and form validation.
- Developed a cross-platform business management mobile application using React Native and TypeScript, implementing authentication, onboarding, nested navigation, and client, quotation, invoice, and payment workflows.
- Integrated REST APIs and implemented search, filtering, pagination, debouncing, and create/update operations while closely matching Figma designs and optimizing application performance.

System Programming Intern

EnterpriseMinds India Private Limited September 2025 – December 2025

- Developed a C-based QR/vCard encoder and an assembly instruction emulator covering registers, memory operations, and control flow.
- Strengthened C programming skills in memory execution flow, function design, structured code organization, and writing reliable, maintainable code following production-oriented programming practices.

Education

MCA

Mangalore Institute of Technology and Engineering CGPA: 8.53 November 2024 - Aug 2026 Moodabidri

BCA

Sri Mahaveera college CGPA: 8.83 November 2021 - July 2024 Moodabidri

Skills

React.js | React Native | TypeScript | JavaScript | C | HTML5 | CSS3 | Redux Toolkit | Redux Persist | TanStack Query | Axios | React Hook Form | Zod | React Navigation | MongoDB | Git | GitHub | REST APIs | Performance Optimization

Projects

AstroAura24 – E-commerce & Live Consultation Platform

https://astroaura24.com

- Contribute to a live platform for gemstone and crystal sales, online payments, and consultation bookings using Next.js and a full-stack architecture.
- Implemented product ordering, Razorpay payment integration, consultation scheduling, and administrative features, including concurrency-safe handling of booking slots and limited-stock products.
- Continuously improve application performance and deliver new features based on client requirements.

Tech: Next.js, React.js, TypeScript, Node.js, Express.js, MongoDB, Razorpay.

Business Management Mobile Application

- Built a cross-platform business application using React Native and TypeScript to manage clients, quotations, invoices, and payments on Android and iOS.
- Implemented onboarding, authentication, nested navigation, persistent state management, and API-driven create, update, search, filtering, and pagination workflows.
- Integrated REST APIs using Axios and TanStack Query, with React Hook Form and Zod for form handling and validation; developed the UI to closely match Figma designs.

Tech: React Native, TypeScript, Redux Toolkit, Redux Persist, TanStack Query, Axios, React Hook Form, Zod.

CERTIFICATIONS & ACHIEVEMENTS

- AWS Academy Graduate — AWS Academy Cloud Foundations (Completed)
- NPTEL — Introduction to the Internet of Things (IoT)
- Research Publication: “Intelligent Edge-Based Farm Security System for Real-Time Animal Detection, Multi-Object Tracking, and Temporal Intrusion Forecasting” — Accepted for oral presentation and publication in Springer LNNS, ISBM 2026, Bangkok, Thailand (Paper ID: 124).
